

Petroleum Geology AES3820
Written Examination, April 1, 2009

Prof. Dr. Stefan M. Luthi

PLEASE NOTE: Please write *as clearly as possible*. I cannot spend much time deciphering unreadable writings, and therefore I will just ignore it. So it's in your interest to express yourself clearly. Please mention your name and student number at the top of each sheet. Good luck!

1. Explain on no more than three pages (A4) the complete path that leads from organic matter to the formation of an oil or gas field.
